

A **NU** DIMENSION IN TERRAZZO TILE

H2O Sealer Application

H2O sealer impregnator should be applied after installation of NURAZZO® Polished Tiles, according to manufacturer's specifications

Steps for **H2O Sealer Application System:**

1. Clean any residue and dirt from the surface using a neutral cleaner.
2. Wet vac area thoroughly
3. Thoroughly clean and rinse the surface. Allow to dry overnight (No less than 12 hours).
4. Apply first application of H2O Sealer Impregnator, allowing to dry 45 minutes - 1 hour.
5. Damp mop.
6. Apply second application of H2O Sealer Impregnator, allowing to dry 45 minutes - 1 hour.
7. Damp mop.
8. Buff the surface using a 175 rpm buffing machine and the **Gorilla Natural Hair Pad.**
